

Outfitter Profile

For Professional Whitewater Guide Services

The Student Conservation Association is the largest and oldest provider of service based conservation education programs in the United States. We currently place approximately 3,500 young people in the field each year to complete conservation work on public lands. SCA also provides recreational opportunities to our participants. Our field staff is highly qualified to provide leadership in a whole range of outdoor pursuits, but we also contract with professional providers to offer opportunities for which we do not maintain organizational expertise.

We are very interested in your company being involved in this experience as a contracted provider of white water rafting. Please fill out and return this survey (to the address referenced in the cover letter) if you are interested in contracting with SCA to provide a white water trip.
